

Head Coach Statement (15/06)

On Thursday evening (11/06) I attended a Club Chair and Coaches event with all clubs in Scotland to discuss what a return to training might look like and considerations for Clubs. On June 5th Scottish Swimming released their Back to the Water Route Map. The route map outlines Scottish Swimming's approach, the decision-making processes and the impact of the COVID19 lockdown and subsequent phases on aquatics. The document explores the possible route back to swimming and all aquatic disciplines from the perspective of pool operators, workforce, clubs, members and the impact on participation, training and competitions.

Last night (14/06) I chaired a meeting of the coaching staff for the first of our Return to Training Planning meetings to discuss what a return to training might look like. We will be holding a meeting this week with the Executive Committee and Coaches to discuss this further and start to put plans in place for an eventual return to training.

To keep our members updated with our progress I have created a new page on our website (still under construction) entitled Return to Training where we will post updates, guidance and notes from Coach/Committee meetings.

We all can't wait to get back into the water when it is safe to do so and will update our members as soon as possible.

Stay safe!
Andrew
